

Jane's Aircraft Upgrades Advertising Opportunities

Jane's Aircraft Upgrades is the companion to Jane's All the World's Aircraft, containing full descriptions of the world's fixed- and rotary-wing aircraft no longer in production but still in civil or military service. It offers details on the latest upgrade programmes, and provides full descriptions of aircraft manufacturers and upgrade companies worldwide.

Long shelf life

Your message lasts a year or longer

Frequently used

Each copy a reference for a wide variety of government, military and industry personnel in the field, in the office and in the library
